Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Descriptive Meteorology For several years the difficulty of directing the studies of these young men has been steadily increasing. Some of the better books on meteorology were fast becoming obsolete, as must always be the case with text-books that treat of a rapidly progressing science; while others, like Hann's masterly work, were, and still are, confined to the foreign languages in which they originally appeared. An urgent necessity, therefore, for a book that would bring the essentials of meteorology up to date, in an available form, was the incentive that led to the preparation of the present work.
