

The Belgian System of Cable Towing as Relating to the Use of Steam on the Canals and the Question of Cheap Transportation (Classic Reprint) (Paperback)

By New York Steam Cable Towing Company

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from The Belgian System of Cable Towing as Relating to the Use of Steam on the Canals and the Question of Cheap Transportation The following results have been obtained: Nine canal boats, or 1400 tons of freight, have been taken in one tow against the current at Black Rock. In all operations no limit of power has been developed. Machinery can be bought in England guaranteed to take 2000 tons of freight four miles the hour. A speed of three miles the hour is readily obtained, but all Special tests at Buffalo have shown from four and one-half to six miles the hour, with 1000 tons of freight in tow, going against current. The expense of a cable tow-boat will not exceed \$80 for 24 hours. In 37 days 38 tons of coal were consumed. The tow-boat will cost about Last season the M. M. Caleb ran continuously 792 miles between Tonawanda and Buffalo, without an accident or delay, of any kind. Reviews

I actually started looking at this pdf. it was writtern extremely properly and valuable. I am very happy to inform you that this is basically the greatest book i have read through during my very own daily life and might be he finest pdf for actually.

-- Jacey Krajcik DVM

Here is the greatest pdf i have got read through till now. It typically will not charge excessive. You wont really feel monotony at anytime of the time (that's what catalogs are for concerning when you question me).
