

## Weekly Station Reports of the Office of Dry Land Agriculture Investigations, Bureau of Plant Industry, U. S. Department of Agriculture: May, 1930 (Classic Reprint) (Paperback)

By United States Department of Agriculture

Forgotten Books, 2016. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Weekly Station Reports of the Office of Dry Land Agriculture Investigations, Bureau of Plant Industry, U. S. Department of Agriculture: May, 1930 The field work the past week has consisted chiefly of harrowing to kill the small weeds which are starting. Considerable time has been Spent in hoeing weeds in the alleys and varietal trials. The winter wheat is growing rapidly, much of it is now knee high. The winter wheats will soon be in the boot stage. Spring grains are growing nicely but not so fast as the winter grains. The permanent roots have started to form on the spring grains. In dry seasons in this section the Spring grains are brought to maturity on the temporary root system. The 301i some times dries out so fast that the permanent roots do not have a chance to develop. Showers last week totaled 66 inch. The rains in the Spring are always followed by Several days of cold winds. The alfalfa, clovers, and grasses have emerged with good stands. Maximum temperature 79; minimum 29; precipitation, 66 inch. The past week was...

### Reviews

*This publication is really gripping and exciting. It really is basic but unexpected situations in the 50 % in the book. It is extremely difficult to leave it before concluding, once you begin to read the book.*

-- Prof. Salvador Lynch

*The best pdf i possibly go through. it was writtern quite properly and useful. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- Miss Sienna Fay Jr.
