Math: Reproducible Activities (The 100+ Series)

By School Specialty Publishing

Instructional Fair, 2003. Paperback. Condition: New. Grades 5-6. Math can be fun with these easy-to-use reproducible worksheets. Organized according to NCTM content standards, this book covers Number and Operations, Pre-Algebra/Algebra, Geometry, Measurement, and Data Analysis and Probability. With a variety of question formats-including problem solving, hands-on exploration, and drill practice-Math gives students comprehensive review in specific areas of mathematics. Fresh content and engaging illustrations keep students interested and motivated. The perfect supplement for any mathematical curriculum, these grade-appropriate activities provide a mix of difficulty levels that will support a range of learning styles and abilities. Empower students to succeed on standardized tests with fun, specific flexible skill-development exercises. Focus on a specific area of mathematics, or select from a variety of skills to offer a broad range of practice.

Reviews

Completely essential read through publication. It normally does not expense excessive. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Morris Cruickshank**

This sort of ebook is every thing and made me hunting forward and a lot more. I have read through and i also am confident that i am going to going to go through once again once more in the foreseeable future. I discovered this publication from my dad and i encouraged this book to discover.
